
CONSTRUCTION COMING
Pipeline Replacement Project
Bexley, OH
Columbia Gas®

WHAT: Columbia Gas and its contractor, Miller Pipeline, are set to begin replacement of our pipeline.

WHY: To comply with PUCO leakage repair dates, Columbia Gas will replace 614 ft. of mainline.

WHERE: Stanbery Ave.

WHEN: Work to begin week of 11/9.

RESTORATION: Temporary hard surface restoration and patching will be maintained until permanent restoration is completed.

NOTE: Once the mainline is installed, each service line replacement takes about 2-4 hours per property and includes a brief service disconnection. Miller Pipeline personnel will reach out to each property owner to schedule an appointment for the shutoff, relight and meter relocation (if necessary).
